

Pump unit with fuel pump for VW Beetle (Mexico production)

si 0023/A GB

MSI-PG 11.02

Vehicle: VW

 Type
Type I Beetle

 Engine
1,6l / 34 kW

 Model year
08.92 –

Product: Pump unit
Pierburg no.
7.21926.00.0/.50.0
7.21926.01.0/.51.0

 O.E. reference no. *)
BAA 919 051 C

Replace: 7.21926.52.0

From 08.92 onwards the VW type 1 (Beetle) manufactured in Mexico will be equipped with an electric fuel pump from Pierburg.

The pump is an in-line pump that is firmly integrated in a pump unit and cannot be replaced as an individual component.

In case of replacement the complete pump unit needs to be exchanged.

Note:

Before replacing the pump unit the connections should be cleaned thoroughly.

Test data

Nominal voltage:	12 V
System pressure:	3 bar / 43,5 psi
Delivery quantity:	≥ 115 l/h
Power consumption:	≤ 4,8 Amps at system pressure

1 –	Overflow and bleeding towards the fuel tank
2 –	Fuel outlet
3 –	Recirculation from pressure regulator
4 –	Inlet from fuel tank
